

# Parrish Fire District

## 2024-2025 Performance Goals

### GOAL #1

**Goal #1: Enhance the Parrish Fire Districts emergency preparedness, by minimizing the impact of incidents, and ensuring rapid and effective action in times of crisis to safeguard lives and property with fire and rescue response, mitigation, and recovery in a timely and efficient manner to the community and the citizens at large.**

**Objective 1.1:** Maintain emergency response apparatus and associated equipment in a state of readiness for fire suppression and emergency response.

- **Performance Measure 1.1.A:** Perform annual pump testing on all assigned fire apparatus to ensure that the first responding units are 100% capable.
- **Performance Measure 1.1.B:** Perform annual hose, nozzle, and appliance testing on all fire suppression equipment to ensure 100% compliance.
- **Performance Measure 1.1.C:** Perform annual emergency apparatus services in compliance with NFPA 1901, *Standard for Automotive Fire Apparatus* and NFPA 1904, *Standard for Aerial Ladder and Elevating Platform Apparatus*

**Objective 1.2:** Provide service and testing on all assigned public hydrants within District boundaries to ensure adequate flow.

- **Performance Measure 1.2.A:** Test and service annually 90% of the assigned public hydrants for adequate flow and pressure within the District boundaries.

**Objective 1.3:** Maintain a well-trained operational workforce for service delivery.

- **Performance Measure 1.3.A:** Maintain at least 90% of annual mandated training hours (150) for rank and file personnel.
- **Performance Measure 1.3.B:** Maintain 100% competency level for Emergency Medical Responders

## **GOAL #2**

**Goal #2: Efficiently respond to emergency service calls while maintaining precise and accurate response recording measures. This focuses on ensuring prompt action during emergencies, enhancing the reliability of response data, and continually improving service delivery through accurate performance tracking.**

**Objective 2.1:** Track response times to identify areas of response for apparatus and personnel usage.

- **Performance Measure 2.1.A:** Respond to all emergency calls for assistance with an average response time by first arriving unit at 6:00 minutes or less 90% of the time annually.

**Objective 2.2:** Maintain accurate and approved report writing to ensure compliance with internal and national reporting criteria.

- **Performance Measure 2.2.A:** Ensure 100% of incident reports for the preceding month are completed and locked within 30 days of incident.

## **GOAL #3**

**Goal #3: Enhance fire prevention and safety through the reduction of risk of fire-related incidents by protecting lives and property and promoting a culture of safety through community risk reduction.**

**Objective 3.1:** Ensure fire prevention methods and compliancy by conducting commercial building inspections.

- **Performance Measure 3.1.A:** Conduct 90% of annual fire inspections.

**Objective 3.2:** Assist citizens with smoke alarm installation to enhance private dwelling safety.

- **Performance measure 3.2.A:** Install 100% of smoke alarms requested by private citizens annually.

**Objective 3.3:** Strengthen prevention efforts in the community by conducting comprehensive community risk reduction classes to the public.

- **Performance Measure 3.3.A:** Deliver 90% of 20 fire prevention classes annually.
